CGPA of 8.71

## Languages

English (Full Working proficiency)  
Tamil (Native language)  
Hindi (Limited Working proficiency)  
Spanish (Elementary proficiency)

## Projects

Data analysis with twitter <https://github.com/Sangarshanan/DATA-ANALYTICS?files=1>

An analysis of Twitter data based on a Sentimental analysis model that matches keywords and can be used for opinion mining by various organizations or individuals to determine the mindset of the tweeters. I have also designed a simple flask based web interface which responds to the user based on their sentiment. This can be used for review based response to product reviews

## Declaration

I hereby declare that the above information is true to the best of my knowledge
